

4-H is a national organization for youth 5 to 19 years old. In California, 4-H is guided by the UC Extension Division of Agriculture and Natural Resources. The four Hs stand for head, heart, hands, and health. Head for clearer thinking, heart for greater loyalty, hands to larger service and health for better living. 4-H members participate in hands-on projects that fall under four primary areas: STEM, civic Engagement, Leadership, and Healthy Living. The Agoura 4-H club has monthly, volunteer-led projects such as Cake Mix Hacks, Global & Cultural Learning, Rabbit and Small Engine Maintenance. The 4-H year culminates at the Ventura County Fair in August where 4-H members enter their projects for competition. The Agoura 4H club organizes multiple community service projects throughout the year improving the community that we live in. The club meets each month on the second Wednesday at 7 pm for a youth led business meeting. The Agoura 4-H Club has been leading our youth to learn, grow, and work together as catalysts for positive change since 1975.
